Exit Counseling Completion Results Report File Layouts for GAs (EXTC03)

January 6, 2011

1.0 NSLDS Exit Counseling Completion Results Report for GAs (EXTC03)

The *Exit Counseling Completion Report (EXTC03)* for GA users provides data from borrowers with loans who have completed exit counseling and have a relationship with the GA. Output results contain the borrower's demographic data including reported addresses for employer, references, and next of kin, as well as the media type, source, and completion date and time of the exit counseling. The EXTC03 report can be requested entering the users desired parameters on the NSLDS Professional Access Web site under the REPORTS tab. It will also be scheduled for automatic distribution monthly as a fixed width extract file sent to the SAIG mailbox (TG#) of the GA's preference.

Online Request Report:

The User will choose an output Type as Report or Extract. The User can specify a particular School ID and Branch ID, leave the asterisks (*) for all schools and school branches, or enter a six-digit School ID and leave the asterisk (*) in the School Branch ID field to receive exit counseling details at the six-digit School ID level. A particular Lender ID and/or Lender Servicer ID can be selected or leave the asterisk (*) for all lenders and/or all lender servicers associated with the GA code. The user may designate a date range or leave the default dates to receive all records since the implementation of Exit Counseling on the NSLDS Student Access Web site. The user will also choose a sort order of SSN or Last Name, First Name. The processed data is sent to the SAIG mailbox associated with the NSLDS User ID requesting this report. Additional hints for printing the report in Microsoft Word format are available in the Report List Help page.

Scheduled Report:

An Exit Counseling Completion Results extract (in fixed width format) will be automatically distributed monthly to a designated SAIG mailbox. The extract output file will contain new records for borrowers who have completed an exit counseling session since the last output file generated the previous month.

This document contains the layouts for the header, detail records, and trailer for the fixed width extract version of the output. Each extract will generate one header record, one, more or no detail records, and one trailer record.

The record layout table contains the position, the data element name, description, field format, and length as they will appear on the fixed width extract.

2.0 Exit Counseling Results Report Record Layout for GAs

Exit Counseling Header Record

Length = 1319

Pos FR	Pos TO	Data Element	Description	Field Format	Lth
1	1	Record Type	'0' – Represents Header.	Char.	1
